

Installation Instructions

1. Lay packaging out on floor or assemble on non-abrasive surface to prevent marking of polished stainless steel.

2. Align and secure each angled post to the centre post using M8x60mm security screws. Use the ident markers at their bases for reference. **(See Assembly Guide Sheet).**

5. Insert 6no. M10x20mm Screws into pre drilled holes in frame using TX45 bit to attach frame to surface base.

6. Attach 3No. Notes Panels to Frame and beater to each arm. **(See Assembly Guide Sheet).**

7. Locate Tutti in desired location and mark holes to fix to desired surface.

8. Fix Surface Plate to level surface using Coachscrews, Rawlbolts, chemical anchors or similar as deemed appropriate by Installer.

9. Make sure all fixings are covered and secure using cover caps provided.

Install Instrument with 1.5m free space (from widest point) around it.

CAUTION: TUTTI surface can get hot in direct sunlight, if possible install in shaded areas.
